

RGH Midwives Organize!

By unanimous decision, the RGH Midwives are joining RUNAP! Earlier today, RGH Midwives presented a demand for recognition to the hospital with 100% support of the department. They will join nearly 1,100 RUNAP members to advocate for our patients, our community, and our profession.

“We see joining RUNAP as a means to deepen our collective commitment to the embedded continuity-of-care midwifery model at RGH and to invest in the longevity of our team’s service to our community.

For too long, the RGH Midwives have suffered without a voice at the table where decisions about our workflow, patient care, benefits and demands on our time are made or delayed. For this and many other reasons, we are excited to join the union.”

Labor & Delivery Nurses Support Our Midwives!

“We are so excited to have our Certified Nurse Midwives join RUNAP by a unanimous decision! Our Midwives work along side us to provide individualized compassionate care to our obstetric, gynecologic and newborn patients. Our midwives play a vital role in patient safety and we are thrilled that they will now have a say in the work that they do and have the protection of union standing along with them.”
