

# RUNAP TECHNICAL WORKERS UNITED

## WE WON!

Tonight, the Technical Workers of RGH have voted to take a stand for our coworkers and our patients by forming our union! Congratulations to the nearly 300 front-line healthcare workers who just won a legally protected seat at the table.

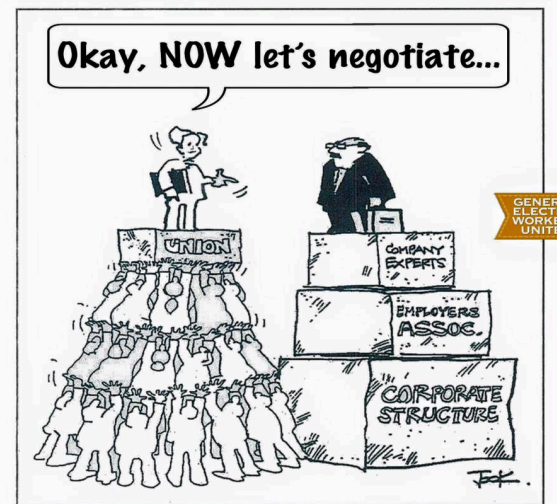

From this moment forward, RRH administration must consult with us before making decisions about our patients, our paychecks, and our benefits. We now have the power to say Yes or No to changes -- no more unilateral decisions!

As healthcare workers with diverse specialties, our expertise and professional judgment is vital to ensuring a safe and healthy hospital.

Regardless of how you voted, your voice should be heard equally. There are no more Yes or No votes after today. Join us to discuss the next steps as we begin the process of electing our bargaining committee and developing proposals to win the conditions we and our patients deserve.

We are ready to use our new collective power to advocate for safer patient care, improved retention, and higher standards in our hospital and in the Rochester community.
